

SightSpan Security Fingerprint-secured pad-lock system

Product Opportunity Highlights

- Prevents unauthorized access to doors, gates, travel or shipping cases
- Great for any environment that requires a padlock
- Convenient Fingerprint interface
- Numeric keypad back up
- Multi-user feature ensures expanded use
- New revenue channel
- Rugged, durable design

The SightSpan Security FieldLOCK has been designed specifically for individuals that are interested in not only protecting and securing valuable items for storage, but also want ease of access and to be able to give access to multiple users without the risk associated with multiple keys and the cost of replacement when keys get lost or stolen.

Innovative, practical and functional, our FieldLOCK is a breakthrough in small mobile fingerprint locks utilizing our patented autonomous fingerprint security system.
